

PROJECT & EXPERIENCE

HealthGrid - Doctor Appointment Booking Platform

April 2025-Present

Technologies: React.js, TailwindCSS, Node.js, Express.js, MongoDB, JWT, Stripe API

Built a full-stack platform enabling patients to book appointments, doctors to manage schedules, and admins to oversee operations. Integrated Stripe for payments and implemented secure multi-role authentication.

Nugget - AI-Powered RSS News Aggregator | Hackathon Project

March 2025-April 2025

Technologies: React.js, FastAPI, Groq Llama API, Pydantic, Newspaper3k

Built an AI-based RSS news aggregator to fetch and summarize articles from multiple sources. I was responsible for the frontend development and frontend-backend integration of the system. Implemented customizable news categories, automatic summarization using Groq Llama API, and real-time content extraction via RSS feeds.

Portfolio

January 2025 - February 2025

Technologies: React.js, Tailwind CSS, Framer Motion

Developed a modern, interactive portfolio to showcase projects and skills with smooth animations. Ensured 100% mobile responsiveness and optimized performance for faster load times

Tunetrek - Headphone E-Commerce Website

Sept 2024 – Nov 2024

Technologies: React.js, Framer Motion

Built an interactive headphone e-commerce website with React.js and Framer Motion. Features include a product showcase, trending products section, and a modern dark-themed UI with smooth transitions for an engaging shopping experience.
